Positions on Political Issues:

Conservative Republican.

Under the Constitution, Congress bears responsibility for our budget and debt. The House of Representatives is the place to fix these problems.

I favor smaller federal government, with less spending, and a reduced debt.

We should rely on a free market economy for growth and return to prosperity.

I am Pro-life. I believe life is a right given by God at the moment of conception and is protected by the Constitution.

We must strengthen our obligations to Social Security and Medicare.

Immigration reforms must observe the law and respect human dignity.

I defend the 2nd Amendment right to keep and bear arms.

I oppose Obamacare or any attempt to socialize medicine or any other aspect of our economy or our lives.
